Pete,

Again, thanks for the call.....really appreciate you reaching out and sharing perspective. I'll ask Tom to add you to our recurring weekly meeting invite.

We had a very productive phone call last week with many of your folks, mainly out of your RC's and John's office. They are assimilating the start of a list of all known actions and requests that are on the table. From that, I'd like to track status and annotate dependencies so that we can quickly determine which, if any, impact critical path and the desired January 2020 restart target date.....and devote attention to the right areas.

I will continue to reinforce with your staff that we are leading the coordination, not interfering in execution and decision-making matters. Please let me know if you or your staff starts to have any concerns with lanes, roles, etc as we move forward. My intent is to produce very high level weekly summaries for the front office here to keep AW prepared for the off-the-cuff question that might come without warning.

I think your knowledge of USVI landscape will be very helpful to flag when we might benefit from beltway engagement/assistance; particularly with other federal agencies. My contact information is below for future reference.

Thanks! Rob

Subject: Limetree Bay

Hi Rob.

Pleased to catch up with you to compare notes on Limetree Bay.

Look forward to staying in close contact.

On that note, please include me, my Chief of Staff and DRA in your email communications on this topic. Both Chris Lyon and Walter Mugdan are copied on this email.

Also, appreciate your help in plugging my office into the weekly phone conferences. I will have representation from my office on tomorrow's (Thursday 's) conference call.

Again, look forward to working closely with you.

Best wishes.

Sincerely,
Pete
